

# Kennedy Capital Management

## Equity Research Internship Program

### How You Will Benefit:

- Learn the principles of investing in the stock market by working daily with investment analysts, including many Chartered Financial Analysts, (CFA®).
- Learn how to analyze and use financial statements (Income Statement, Balance Sheet, Cash Flow Statement) to help make investment decisions
- Learn how to efficiently use financial research software (ex: FactSet Research Systems, Inc. and Holt Lens™)

### What You Will Do on a Daily Basis:

- Research companies (what products they make, how profitable they are, what competitive advantages they have, supply and demand in their industry) to aid in the investment process
- Contribute to the investment decision process (whether you think a stock is a buy or sell and why)
- Participate in meetings where KCM analysts talk with CEOs and CFOs about their businesses (micro to mid-cap public companies)
- Build financial models to show a corporation's potential cash generation
- Update internal databases, distribute reports, and perform other administrative tasks
