The date of this Prospectus is May 1, 2022.

SUMMARY SECTION

Investment Objective

The investment objective of the Kennedy Capital ESG SMID Cap Fund (the “Fund”) is capital appreciation.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy, hold and sell shares of the Fund. You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the table and example below.

Shareholder Fees <i>(fees paid directly from your investment)</i>	Investor Class Shares	Institutional Class Shares
Wire fee	\$20	\$20
Overnight check delivery fee	\$25	\$25
Retirement account fees (annual maintenance fee)	\$15	\$15
Annual Fund Operating Expenses <i>(expenses that you pay each year as a percentage of the value of your investment)</i>		
Management fees	0.75%	0.75%
Distribution (Rule 12b-1) fees	0.25%	None
Other expenses	1.74%	1.74%
Total annual fund operating expenses	2.74%	2.49%
Fees waived and/or expenses reimbursed ¹	(1.67%)	(1.67%)
Total annual fund operating expenses after waiving fees and/or reimbursing expenses¹	1.07%	0.82%

- 1 The Fund’s advisor has contractually agreed to waive its fees and/or pay for operating expenses of the Fund to ensure that total annual fund operating expenses (excluding any taxes, leverage interest, brokerage commissions, dividend and interest expenses on short sales, acquired fund fees and expenses (as determined in accordance with SEC Form N-1A), expenses incurred in connection with any merger or reorganization, and extraordinary expenses such as litigation expenses) do not exceed 1.07% and 0.82% of the average daily net assets of the Investor Class shares and Institutional Class shares of the Fund, respectively. This agreement is in effect until April 30, 2023, and it may be terminated before that date only by the Trust’s Board of Trustees. The Fund’s advisor is permitted to seek reimbursement from the Fund, subject to certain limitations, of fees waived or payments made to the Fund for a period ending three full years after the date of the waiver or payment. This reimbursement may be requested from the Fund if the reimbursement will not cause the Fund’s annual expense ratio to exceed the lesser of (a) the expense limitation in effect at the time such fees were waived or payments made, or (b) the expense limitation in effect at the time of the reimbursement.

Example

This example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same. The example reflects the Fund’s contractual fee waiver and/or expense reimbursement only for the term of the contractual fee waiver and/or expense reimbursement.

Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	<u>One Year</u>	<u>Three Years</u>	<u>Five Years</u>	<u>Ten Years</u>
Investor Class shares	\$109	\$692	\$1,301	\$2,948
Institutional Class shares	\$84	\$616	\$1,175	\$2,699

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund’s performance. During the most recent fiscal year, the Fund’s portfolio turnover rate was 87% of the average value of its portfolio.

Principal Investment Strategies

Under normal circumstances, the Fund invests at least 80% of its net assets (plus any borrowings for investment purposes) in securities of small and mid capitalization companies. In particular, the Fund primarily invests in a diversified portfolio of common stock of domestic companies. The Fund may also invest in real estate investment trusts (“REITs”). The Fund’s advisor, Kennedy Capital Management, Inc. (the “Advisor”), defines small and mid capitalization companies as those with market capitalizations within the range of companies included in the Russell 2500™ Index (the “Index”) at the time of purchase. The capitalization range of companies in the Index may change with market conditions or due to changes in the composition of the Index. As of March 31, 2022, the market capitalization range of the Index was between \$21 million and \$43 billion. Investments in companies that move above or below the capitalization range of the Index may continue to be held by the Fund in the Advisor’s sole discretion, and the Fund’s investments are not limited to the stocks included in the Index.

The Advisor’s investment decisions for the Fund are made primarily on the basis of bottom-up, fundamental research, integrated with an analysis of a company’s environmental, social and governance (“ESG”) characteristics. ESG factors are considered on both an inclusionary and exclusionary basis. The Advisor’s investment process involves examining four key components: (i) the company’s corporate performance (including traditional fundamentals and ESG variables); (ii) systematic effects on the company’s business; (iii) the company’s competitive position; and (iv) the company’s intrinsic value. The Advisor’s environmental assessment process includes identifying companies that provide products or services that are tied to an environmental competitive advantage as compared to their peers. For example, the Fund may invest in companies offering products or services with superior energy efficiency, solutions to emissions regulations, or services related to recycling and product reuse. Social assessment includes identifying companies that promote societal benefits or address societal challenges. For example, the Fund may invest in companies that focus on lowering the cost of healthcare, combatting the opioid epidemic, or offering ethically sourced products. Governance assessment includes a focus on shareholder rights, senior management compensation, board structure and audit/accounting risk.

The Advisor may complement its internal ESG assessment of a company with relevant primary data from third parties regarding ESG considerations such as carbon emissions (reported or estimated) and carbon reserves, business involvement data for key social issues, and corporate governance. The Advisor does not rely on third party ESG rankings or a scoring mechanism in the Fund’s portfolio construction process; however, specific governance scores are a component of company assessments and stock selection. The Advisor engages in active dialogues with company management teams to further inform its investment decision-making and to foster discussion with management regarding ESG issues and opportunities.

The Fund is fossil fuel free which means it excludes companies that hold fossil fuel reserves on their balance sheets. The Fund prioritizes reduced greenhouse gas emissions (reported and estimated) in the portfolio construction process. In addition, the Fund’s ESG criteria is designed to exclude companies that are involved in, and/or derive significant revenue from, certain industries or product lines, including tobacco, civil firearms (defined as those firearms typically available for consumer use in the United States) and controversial weapons (defined as cluster munitions and land

mines). The Fund's ESG criteria does not exclude traditional defense contractors with no exposure to controversial weapons or civil firearms.

The Fund invests in growth-oriented companies as well as those companies that the Advisor considers to be undervalued. The Advisor utilizes a company's return on invested capital as a central component of its analysis to determine the intrinsic value of companies included in the Fund's portfolio.

The Advisor may sell all or a portion of a position of the Fund's portfolio holding when in its opinion one or more of the following occurs, among other reasons: (i) the issuer's fundamentals deteriorate; (ii) there is a significant change in the company's performance relative to ESG criteria or the Advisor's assessment thereof; (iii) the Advisor's valuation analysis determines a security has realized its full valuation; (iv) the Advisor identifies more attractive investment opportunities for the Fund; or (v) the Fund requires cash to meet redemption requests.

Principal Risks of Investing

Risk is inherent in all investing and you could lose money by investing in the Fund. A summary description of certain principal risks of investing in the Fund is set forth below. Before you decide whether to invest in the Fund, carefully consider these risk factors associated with investing in the Fund, which may cause investors to lose money. There can be no assurance that the Fund will achieve its investment objective.

Market risk. The market price of a security or instrument may decline, sometimes rapidly or unpredictably, due to general market conditions that are not specifically related to a particular company, such as real or perceived adverse economic or political conditions throughout the world, changes in the general outlook for corporate earnings, changes in interest or currency rates, or adverse investor sentiment generally. In addition, local, regional or global events such as war, acts of terrorism, the spread of infectious illness or other public health issues, or other events could have a significant impact on a security or instrument. The market value of a security or instrument also may decline because of factors that affect a particular industry or industries, such as labor shortages or increased production costs and competitive conditions within an industry.

Equity risk. The value of the equity securities held by the Fund may fall due to general market and economic conditions, perceptions regarding the industries in which the issuers of securities held by the Fund participate, or factors relating to specific companies in which the Fund invests.

Small-cap and mid-cap company risk. The securities of small-capitalization and mid-capitalization companies may be subject to more abrupt or erratic market movements and may have lower trading volumes or more erratic trading than securities of larger, more established companies or market averages in general. In addition, such companies typically are more likely to be adversely affected than large capitalization companies by changes in earning results, business prospects, investor expectations or poor economic or market conditions.

Growth-oriented investment strategies risk. Growth funds generally focus on stocks of companies believed to have above-average potential for growth in revenue and earnings. Growth securities typically are very sensitive to market movements because their market prices frequently reflect projections of future earnings or revenues, and when it appears that those expectations will not be met, the prices of growth securities typically fall.

Value-oriented investment strategies risk. Value stocks are those that are believed to be undervalued in comparison to their peers due to adverse business developments or other factors. Value investing is subject to the risk that the market will not recognize a security's inherent value for a long time or at all, or that a stock judged to be undervalued may actually be appropriately priced or overvalued. In addition, during some periods (which may be extensive) value stocks generally may be out of favor in the markets.

Management and strategy risk. The value of your investment depends on the judgment of the Fund's advisor about the quality, relative yield, value or market trends affecting a particular security, industry, sector or region, which may prove to be incorrect.

ESG criteria risk. While the Advisor believes that the integration of ESG analysis as part of the investment process contributes to its risk management approach, the Fund's consideration of ESG criteria in making its investment decisions may affect the Fund's exposure to risks associated with certain issuers, industries and sectors, which may impact the Fund's investment performance. In addition, because the Fund's ESG criteria exclude securities of certain issuers, the Fund may forgo some market opportunities available to funds that do not use these criteria. There are significant differences in interpretations of what it means for a company to have positive ESG characteristics. Furthermore, ESG information from third-party data providers may be incomplete, inaccurate, or unavailable, which could cause the Advisor to incorrectly assess a company's ESG characteristics.

REIT risk. The Fund's investment in REITs will subject the Fund to risks similar to those associated with direct ownership of real estate, including losses from casualty or condemnation, and changes in local and general economic, supply and demand, interest rates, zoning laws, regulatory limitations on rents, property taxes and operating expenses.

Liquidity risk. The Fund may not be able to sell some or all of the investments that it holds due to a lack of demand in the marketplace or other factors such as market turmoil, or if the Fund is forced to sell an illiquid asset to meet redemption requests or other cash needs it may only be able to sell those investments at a loss. Illiquid assets may also be difficult to value.

COVID-19 related market events. The pandemic of the novel coronavirus respiratory disease designated COVID-19 has resulted in extreme volatility in the financial markets, a domestic and global economic downturn, severe losses, particularly to some sectors of the economy and individual issuers, and reduced liquidity of many instruments. There have also been significant disruptions to business operations, including business closures; strained healthcare systems; disruptions to supply chains and employee availability; large fluctuations in consumer demand; and widespread uncertainty regarding the duration and long-term effects of the pandemic. The pandemic may result in domestic and foreign political and social instability, damage to diplomatic and international trade relations, and continued volatility and/or decreased liquidity in the securities markets. Some interest rates are very low and in some cases yields are negative. Governments and central banks, including the Federal Reserve in the United States, are taking extraordinary and unprecedented actions to support local and global economies and the financial markets. This and other government intervention into the economy and financial markets to address the pandemic may not work as intended, particularly if the efforts are perceived by investors as being unlikely to achieve the desired results. Rates of inflation have also recently risen, which could adversely affect economies and markets. In addition, the COVID-19 pandemic, and measures taken to mitigate its effects, could result in disruptions to the services provided to the Fund by its service providers. Other market events like the COVID-19 pandemic may cause similar disruptions and effects.

Cybersecurity risk. Cybersecurity incidents may allow an unauthorized party to gain access to Fund assets, customer data (including private shareholder information), or proprietary information, or cause the Fund, the Fund's advisor, and/or other service providers (including custodians, sub-custodians, transfer agents and financial intermediaries) to suffer data breaches, data corruption or loss of operational functionality. In an extreme case, a shareholders' ability to exchange or redeem Fund shares may be affected. Issuers or securities in which the Fund invests are also subject to cybersecurity risks, and the value of those securities could decline if the issuers experience cybersecurity incidents.

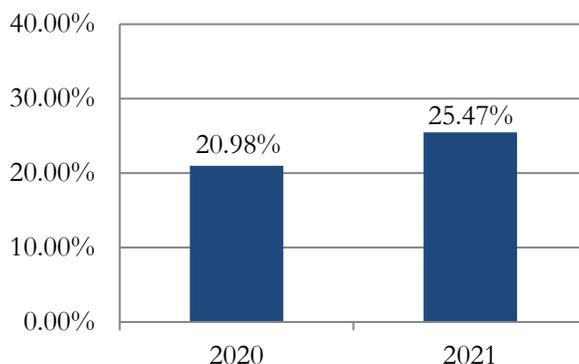

Performance

The bar chart and table below provide some indication of the risks of investing in the Fund by showing changes in the Fund's performance from year to year for Institutional Class shares and by showing how the average annual total returns of each class of the Fund compare with the average annual total returns of a broad-based market index. Performance for classes other than those shown may vary from the performance shown to the extent the expenses for those classes differ. Updated performance information is available at the Fund's website, www.kennedycapital.com,

or by calling the Fund at 1-877-882-8825. The Fund's past performance, before and after taxes, is not necessarily an indication of how the Fund will perform in the future.

Calendar-Year Total Return (before taxes) Institutional Class Shares

For each calendar year at NAV

The year-to-date return as of March 31, 2022 was (7.47)%.

Institutional Shares		
Highest Calendar Quarter Return at NAV	27.93%	Quarter Ended 12/31/2020
Lowest Calendar Quarter Return at NAV	(27.72%)	Quarter Ended 3/31/2020

Average Annual Total Returns (for periods ended December 31, 2021)	1 Year	Since Inception (June 28, 2019)
Institutional Shares - Return Before Taxes	25.47%	22.14%
Institutional Shares- Return After Taxes on Distributions*	23.31%	21.25%
Institutional Shares - Return After Taxes on Distributions and Sale of Fund Shares*	16.13%	17.29%
Russell 2500 Index (reflects no deductions for fees, expenses or taxes)	18.18%	18.14%

* After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts.

Investment Advisor

Kennedy Capital Management, Inc.

Portfolio Manager

Christian McDonald, CFA, has been primarily responsible for the day-to-day management of the Fund's portfolio since its inception on June 28, 2019.

Purchase and Sale of Fund Shares

To purchase shares of the Fund, generally you must invest at least the minimum amount. Currently, Investor Class shares are not available for purchase.

<u>Minimum Investments</u>	<u>To Open Your Account</u>	<u>To Add to Your Account</u>
Investor Class		
Direct Regular Accounts	\$2,500	\$100
Direct Retirement Accounts	\$2,500	\$100
Automatic Investment Plan	\$2,500	\$100
Gift Account For Minors	\$2,500	\$100
Institutional Class		
Direct Regular Accounts	\$50,000	\$100
Direct Retirement Accounts	\$50,000	\$100
Automatic Investment Plan	\$50,000	\$100
Gift Account For Minors	\$50,000	\$100

Fund shares are redeemable on any business day the New York Stock Exchange (the “NYSE”) is open for business, by written request or by telephone.

Tax Information

The Fund’s distributions are generally taxable, and will ordinarily be taxed as ordinary income, qualified dividend income or capital gains, unless you are investing through a tax-advantaged arrangement, such as a 401(k) plan or an individual retirement account. Shareholders investing through such tax-advantaged arrangements may be taxed later upon withdrawal of monies from those arrangements.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary’s website for more information.

MORE ABOUT THE FUND'S INVESTMENT OBJECTIVE, PRINCIPAL INVESTMENT STRATEGIES AND RISKS

Investment Objective

The Fund's investment objective is capital appreciation. There is no assurance that the Fund will achieve its investment objective.

The Fund's investment objective is not fundamental and may be changed by the Board of Trustees without shareholder approval, upon at least 60 days' prior written notice to shareholders. The Fund's investment strategies and policies may be changed from time to time without shareholder approval or prior written notice, unless specifically stated otherwise in this Prospectus or the SAI.

Principal Investment Strategies

Under normal circumstances, the Fund invests at least 80% of its net assets (plus any borrowings for investment purposes) in securities of small and mid capitalization companies. The Fund will not change this investment policy unless it gives shareholders at least 60 days' advance written notice. In particular, the Fund primarily invests in a diversified portfolio of common stock of domestic companies. The Fund may also invest in real estate investment trusts. The Advisor defines small and mid capitalization companies as those with market capitalizations within the capitalization range of companies in the Russell 2500™ Index at the time of purchase. The capitalization range of companies in the Index may change with market conditions or due to changes to the composition of the Index. As of March 31, 2022, the market capitalization range of the Index was between \$21 million and \$43 billion. Investments in companies that move above or below the capitalization range of the Index may continue to be held by the Fund in the Advisor's sole discretion, and the Fund's investments are not limited to the stocks included in the Index.

The Advisor's investment decisions for the Fund are made primarily on the basis of bottom-up, fundamental research, integrated with an analysis of a company's ESG characteristics. ESG factors are considered on both an inclusionary and exclusionary basis. The Advisor's investment process involves examining four key components: (i) the company's corporate performance (including traditional fundamentals and ESG variables); (ii) systematic effects on the company's business; (iii) the company's competitive position; and (iv) the company's intrinsic value. First, the Advisor examines a company's corporate performance by evaluating the operating history of the company, ESG profile, management's ability and quality, and the company's core competencies, culture and ability to evolve. The Advisor seeks to identify companies across the growth-to value spectrum. The Advisor places additional emphasis on business that provide solutions to environmental or societal problems, or exhibit an attractive governance profile. Next, in order to better understand the key drivers of a company's business, the Advisor examines systematic effects, or the tailwinds and headwinds, on the company's business, by evaluating the factors affecting the business and the company's positioning in the market. The Advisor then evaluates the sustainability of the company's competitive position and returns to determine whether there are any barriers to protect the company's market position or opportunities for improvement. Lastly, the Advisor estimates the intrinsic value of the company compared to the price at which the company's securities trade in the marketplace. The Advisor generally focuses on the securities of companies trading at a discount to intrinsic value.

The Advisor's environmental assessment process includes identifying companies that provide products or services that are tied to an environmental competitive advantage as compared to their peers. For example, the Fund may invest in companies offering products or services with superior energy efficiency, solutions to emissions regulations, or services related to recycling and product reuse. The social assessment includes identifying companies that promote societal benefits or address societal challenges. For example, the Fund may invest in companies that focus on lowering the cost of healthcare, combatting the opioid epidemic, or offering ethically sourced products. The governance assessment includes a focus on shareholder rights, senior management compensation, board structure and audit/accounting risk.

The Advisor may complement its internal ESG assessment of a company with relevant data from third parties regarding ESG considerations, which may include: (i) reported and estimated greenhouse gas emissions; (ii) carbon reserves; (iii) industry exposure; (iv) business involvement, including exposure to tobacco, civil firearms, or

controversial weapons; (v) board structure and diversity; (vi) executive compensation; (vii) audit and accounting risk; and (viii) shareholder rights.

The Advisor does not rely on third party ESG rankings or a scoring mechanism in the Fund's portfolio construction process; however, specific governance scores are a component of company assessments and stock selection. The Advisor engages in active dialogues with company management teams to further inform its investment decision-making and to foster discussion with management on ESG issues and opportunities.

The Fund is fossil fuel free which means it excludes companies that hold fossil fuel reserves on their balance sheets. The Fund prioritizes reduced greenhouse gas emissions (reported and estimated) in the portfolio construction process. In addition, the Fund's ESG criteria is designed to exclude companies that are involved in, and/or derive significant revenue from, certain industries or product lines, including tobacco, civil firearms (defined as those firearms typically available for consumer use in the United States) and controversial weapons (defined as cluster munitions and land mines). The Fund's ESG criteria does not exclude traditional defense contractors with no exposure to controversial weapons or civil firearms.

The Fund invests in growth-oriented companies as well as those companies that are considered undervalued. The Advisor utilizes a company's return on invested capital as a central component of its analysis to determine the intrinsic value of companies included in the Fund's portfolio. The Fund's portfolio is generally managed on a sector neutral basis with modest over- and under-weights as compared to the Index, driven by bottom-up stock selection and ESG considerations. The Advisor seeks to manage investment risk by maintaining broad issuer and industry diversification among the Fund's holdings, and by utilizing fundamental analysis of risk/return characteristics in the security selection process.

The Advisor may sell all or a portion of a position of the Fund's portfolio holding when in its opinion one or more of the following occurs, among other reasons: (i) the issuer's fundamentals deteriorate; (ii) there is a significant change in the company's performance relative to ESG criteria or the Advisor's assessment thereof; (iii) the Advisor's valuation analysis determines a security has realized its full valuation; (iv) the Advisor identifies more attractive investment opportunities for the Fund; or (v) the Fund requires cash to meet redemption requests.

When the Advisor believes that current market, economic, political or other conditions are unsuitable and would impair the pursuit of the Fund's investment objective, the Fund may invest some or all of its assets in cash or cash equivalents, including but not limited to obligations of the U.S. government money market fund shares. When the Fund takes a temporary defensive position, the Fund may not achieve its investment objective.

Principal Risks of Investing

The Fund's principal risks are set forth below. Before you decide whether to invest in the Fund, carefully consider these risk factors and special considerations associated with investing in the Fund, which may cause you to lose money.

- **Market risk.** The market price of a security or instrument may decline, sometimes rapidly or unpredictably, due to general market conditions that are not specifically related to a particular company, such as real or perceived adverse economic or political conditions throughout the world, changes in the general outlook for corporate earnings, changes in interest or currency rates or adverse investor sentiment generally. The market value of a security or instrument also may decline because of factors that affect a particular industry or industries, such as labor shortages or increased production costs and competitive conditions within an industry. In addition, local, regional or global events such as war, acts of terrorism, the spread of infectious illness or other public health issues, or other events could have a significant impact on a security or instrument. For example, the financial crisis that began in 2007 caused a significant decline in the value and liquidity of many securities; in particular, the values of some sovereign debt and of securities of issuers that invest in sovereign debt and related investments fell, credit became more scarce worldwide and there was significant uncertainty in the markets. More recently, Russia's invasion of Ukraine and the COVID-19 pandemic have negatively affected the worldwide economy, as well as the economies of individual countries, the financial health of individual companies and the market in general in significant and unforeseen ways. Such environments could make

identifying investment risks and opportunities especially difficult for the Advisor. In response to these crises, the United States and other governments have taken steps to support financial markets. The withdrawal of this support or failure of efforts in response to a crisis could negatively affect financial markets generally as well as the value and liquidity of certain securities. In addition, policy and legislative changes in the United States and in other countries are changing many aspects of financial regulation. The impact of these changes on the markets, and the practical implications for market participants, may not be fully known for some time.

- **Equity risk.** The value of equity securities held by the Fund may fall due to general market and economic conditions, perceptions regarding the industries in which the issuers of securities held by the Fund participate, or factors relating to specific companies in which the Fund invests. The price of common stock of an issuer in the Fund's portfolio may decline if the issuer fails to make anticipated dividend payments because, among other reasons, the financial condition of the issuer declines. Common stock is subordinated to preferred stocks, bonds and other debt instruments in a company's capital structure in terms of priority with respect to corporate income, and therefore will be subject to greater dividend risk than preferred stocks or debt instruments of such issuers. In addition, while broad market measures of common stocks have historically generated higher average returns than fixed income securities, common stocks have also experienced significantly more volatility in those returns.
- **Small-cap and mid-cap company risk.** Investing in small-capitalization and mid-capitalization companies generally involves greater risks than investing in large-capitalization companies. Small- or mid-cap companies may have limited product lines, markets or financial resources or may depend on the expertise of a few people and may be subject to more abrupt or erratic market movements than securities of larger, more established companies or market averages in general. Many small capitalization companies may be in the early stages of development. Since equity securities of smaller companies may lack sufficient market liquidity and may not be regularly traded, it may be difficult or impossible to sell securities at an advantageous time or a desirable price.
- **Growth-oriented investment strategies risk.** Growth funds generally focus on stocks of companies believed to have above-average potential for growth in revenue and earnings. Growth securities typically are very sensitive to market movements because their market prices frequently reflect projections of future earnings or revenues, and when it appears that those expectations will not be met the prices of growth securities typically fall. Prices of these companies' securities may be more volatile than those of other securities, particularly over the short term.
- **Value-oriented investment strategies risk.** Value stocks are those that are believed to be undervalued in comparison to their peers due to adverse business developments or other factors. Value investing carries the risk that the market will not recognize a security's inherent value for a long time or at all, or that a stock judged to be undervalued may actually be appropriately priced or overvalued. In addition, during some periods (which may be extensive) value stocks generally may be out of favor in the markets. Therefore, the Fund is most suitable for long-term investors who are willing to hold their shares for extended periods of time through market fluctuations and the accompanying changes in share prices.
- **Management and strategy risk.** The value of your investment depends on the judgment of the Advisor about the quality, relative yield, value or market trends affecting a particular security, industry, sector or region, which may prove to be incorrect. Investment strategies employed by the Advisor in selecting investments for the Fund may not result in an increase in the value of your investment or in overall performance equal to other investments.
- **ESG criteria risk.** While the Advisor believes that the integration of ESG analysis as part of the investment process contributes to its risk management approach, the Fund's consideration of ESG criteria in making its investment decisions may affect the Fund's exposure to risks associated with certain issuers, industries and sectors, which may impact the Fund's investment performance. In addition, because the Fund's ESG criteria exclude securities of certain issuers, the Fund may forgo some market opportunities available to funds that do

not use these criteria. There are significant differences in interpretations of what it means for a company to have positive ESG characteristics. While the Advisor believes its ESG criteria for excluding securities of certain issuers is reasonable, the Fund's investments may include securities of issuers that derive revenue from non-ESG activities. Furthermore, ESG information from third-party data providers may be incomplete, inaccurate, or unavailable, which could cause the Advisor to incorrectly assess a company's ESG characteristics. Moreover, ESG information, whether from an external and/or internal source, is, by nature and in many instances, based on a qualitative and subjective assessment. Moreover, the third-party data providers may differ in the data they provide for a given security or between industries, or may only take into account one of many ESG-related components of a company.

- **REIT risk.** The Fund's investments in REITs will subject the Fund to risks similar to those associated with direct ownership of real estate, including losses from casualty or condemnation, and changes in local and general economic conditions, supply and demand, interest rates, zoning laws, regulatory limitations on rents, property taxes and operating expenses. Investment in REITs is subject to additional risks, such as poor performance by the manager of the REIT, adverse changes to the tax laws or failure by the REIT to qualify for the favorable tax treatment generally available to REITs under the Internal Revenue Code of 1986, as amended. In addition, some REITs have limited diversification because they invest in a limited number of properties, a narrow geographic area, or a single type of property.
- **Liquidity risk.** Due to a lack of demand in the marketplace or other factors, such as market turmoil, the Fund may not be able to sell some or all of the investments that it holds, or if the Fund is forced to sell an illiquid asset to meet redemption requests or other cash needs, it may only be able to sell those investments at a loss. Liquidity risk arises, for example, from small average trading volumes, trading restrictions, or temporary suspensions of trading. In addition, when the market for certain investments is illiquid, the Fund may be unable to achieve its desired level of exposure to a certain sector. Liquid investments may become illiquid or less liquid after purchase by the Fund, particularly during periods of market turmoil. Illiquid and relatively less liquid investments may be harder to value, especially in changing markets.
- **COVID-19 related market events.** The pandemic of the novel coronavirus respiratory disease designated COVID-19 has resulted in extreme volatility in the financial markets, a domestic and global economic downturn, severe losses, particularly to some sectors of the economy and individual issuers, and reduced liquidity of many instruments. There have also been significant disruptions to business operations, including business closures; strained healthcare systems; disruptions to supply chains and employee availability; large fluctuations in consumer demand; restrictions on travel; and widespread uncertainty regarding the duration and long-term effects of the pandemic. The pandemic may result in domestic and foreign political and social instability, damage to diplomatic and international trade relations, and continued volatility and/or decreased liquidity in the securities markets. These conditions may continue for an extended period of time, or worsen. The pandemic may result in a sustained domestic or global economic downturn or recession. Health crises such as the COVID-19 pandemic may exacerbate other pre-existing political, social, and economic risks. Developing or emerging market countries may be more adversely impacted. The ultimate economic fallout from the pandemic, and the long-term impact on economies, markets, industries and individual issuers, are not yet fully known. Governments and central banks, including the Federal Reserve in the United States, are taking extraordinary and unprecedented actions to support local and global economies and the financial markets in response to the COVID-19 pandemic, including by pushing interest rates to very low levels. This and other government intervention into the economy and financial markets to address the pandemic may not work as intended, particularly if the efforts are perceived by investors as being unlikely to achieve the desired results. Government actions to mitigate the economic impact of the pandemic have resulted in large expansion of government deficits and debt, the long-term consequences of which are not known. Rates of inflation have also recently risen, which could adversely affect economies and markets. The COVID-19 pandemic could continue to adversely affect the value and liquidity of the Fund's investments, impair the Fund's ability to satisfy redemption requests, and negatively impact the Fund's performance. In addition, the COVID-19 pandemic, and measures taken to mitigate its effects, could result in disruptions to the services provided to the Fund by its service providers. Other market events like the COVID-19 pandemic may cause similar disruptions and effects.

- **Cybersecurity risk.** Cybersecurity incidents may allow an unauthorized party to gain access to Fund assets, customer data (including private shareholder information), or proprietary information, or cause the Fund, the Fund’s advisor, and/or other service providers (including custodians, sub-custodians, transfer agents and financial intermediaries) to suffer data breaches, data corruption or loss of operational functionality. A cybersecurity incident may disrupt the processing of shareholder transactions, impact the Fund’s ability to calculate its net asset values, and prevent shareholders from redeeming their shares. Issuers of securities in which the Fund invests are also subject to cybersecurity risks and the value of those securities could decline if the issuers experience cybersecurity incidents.

Portfolio Holdings Information

A description of the Fund’s policies and procedures with respect to the disclosure of the Fund’s portfolio securities is available in the Fund’s Statement of Additional Information (“SAI”). Currently, disclosure of the Fund’s holdings is required to be made quarterly within 60 days of the end of each fiscal quarter in the Fund’s Annual Report and Semi-Annual Report to Fund shareholders and in its quarterly holdings report on Form N-PORT.

MANAGEMENT OF THE FUND

Investment Advisor

Kennedy Capital Management, Inc. a Missouri S corporation, formed in 1980, which maintains its principal offices at 10829 Olive Boulevard, Suite 100, St. Louis, Missouri 63141, acts as the investment advisor to the Fund pursuant to an investment advisory agreement (the “Advisory Agreement”) with the Trust. The Advisor is an investment advisor registered with the SEC and provides investment advice to open-end funds, private investment funds, collective investment trust funds, and institutional and high net worth clients. The Advisor has approximately \$4.92 billion in assets under management as of December 31, 2021.

Pursuant to the Advisory Agreement, the Fund pays the Advisor an annual advisory fee of 0.75% of the Fund’s average daily net assets for the services and facilities it provides, payable on a monthly basis. For the fiscal year ended December 31, 2021, the Advisor did not receive any advisory fees, after waiving fees pursuant to its expense limitation agreement with the Trust on behalf of the Fund.

A discussion regarding the basis for the Board’s approval of the Advisory Agreement is available in the Fund’s Annual Report to shareholders dated as of December 31, 2021.

Portfolio Manager

Christian McDonald, CFA, is primarily responsible for the day-to-day management of the Fund’s portfolio and is the portfolio manager for the Advisor’s ESG SMID Cap strategy. Mr. McDonald also serves as the co-portfolio manager for the Small Cap Core Strategy and is the assistant portfolio manager for the Advisor’s Micro Cap strategy. In addition, Mr. McDonald serves as a research analyst at the Advisor, primarily responsible for selecting and monitoring securities within the industrials sector. Mr. McDonald joined the Advisor in 2005. Mr. McDonald earned a BS in Finance and Operations Management from Washington University and a MBA from the UCLA Anderson School of Business.

The SAI provides additional information about the portfolio manager’s method of compensation, other accounts managed by the portfolio manager and the portfolio manager’s ownership of Fund securities.

Other Service Providers

IMST Distributors, LLC (the “Distributor”) is the Trust’s principal underwriter and acts as the Trust’s distributor in connection with the offering of Fund shares. The Distributor may enter into agreements with banks, broker-dealers, or other financial intermediaries through which investors may purchase or redeem shares. The Distributor is not affiliated with the Trust, the Advisor, or any other service provider for the Fund.

Fund Expenses

The Fund is responsible for its own operating expenses (all of which will be borne directly or indirectly by the Fund's shareholders), including among others, legal fees and expenses of counsel to the Fund and the Fund's independent trustees; insurance (including trustees' and officers' errors and omissions insurance); auditing and accounting expenses; taxes and governmental fees; listing fees; fees and expenses of the Fund's custodians, administrators, transfer agents, registrars and other service providers; expenses for portfolio pricing services by a pricing agent, if any; expenses in connection with the issuance and offering of shares; brokerage commissions and other costs of acquiring or disposing of any portfolio holding of the Fund; and any litigation expenses.

The Advisor has contractually agreed to waive its fees and/or pay for operating expenses of the Fund to ensure that the total annual fund operating expenses (excluding any taxes, leverage interest, brokerage commissions, dividend and interest expenses on short sales, acquired fund fees and expenses (as determined in accordance with Form N-1A), expenses incurred in connection with any merger or reorganization, and extraordinary expenses such as litigation expenses) do not exceed 1.07% and 0.82% of the average daily net assets of the Investor Class shares and Institutional Class shares of the Fund, respectively. This agreement is in effect until April 30, 2023, and it may be terminated before that date only by the Trust's Board of Trustees.

Any reduction in advisory fees or payment of the Fund's expenses made by the Advisor in a fiscal year may be reimbursed by the Fund for a period ending three full years after the date of reduction or payment if the Advisor so requests. This reimbursement may be requested from the Fund if the reimbursement will not cause the Fund's annual expense ratio to exceed the lesser of (a) the expense limitation in effect at the time such fees were waived or payments made, or (b) the expense limitation in effect at the time of the reimbursement. However, the reimbursement amount may not exceed the total amount of fees waived and/or Fund expenses paid by the Advisor and will not include any amounts previously reimbursed to the Advisor by the Fund. Any such reimbursement is contingent upon the Board's subsequent review of the reimbursed amounts. The Fund must pay current ordinary operating expenses before the Advisor is entitled to any reimbursement of fees and/or Fund expenses.

Additional Payments to Broker-Dealers and Other Financial Intermediaries

The Advisor may pay service fees to intermediaries such as banks, broker-dealers, financial advisors or other financial institutions, some of which may be affiliates, for sub-administration, sub-transfer agency and other shareholder services associated with shareholders whose shares are held of record in omnibus accounts, other group accounts or accounts traded through registered securities clearing agents.

The Advisor, out of its own resources, and without additional cost to the Fund or its shareholders, may provide additional cash payments or non-cash compensation to broker-dealers or intermediaries that sell shares of the Fund. These additional cash payments are generally made to intermediaries that provide shareholder servicing, marketing support and/or access to sales meetings, sales representatives and management representatives of the intermediary. The Advisor may pay cash compensation for inclusion of the Fund on a sales list, including a preferred or select sales list, or in other sales programs, or may pay an expense reimbursement in cases where the intermediary provides shareholder services to the Fund's shareholders. The Advisor may also pay cash compensation in the form of finder's fees that vary depending on the dollar amount of the shares sold.

Prior Performance for Similar Accounts Managed by the Advisor

ESG SMID Cap Composite

The following table sets forth performance data relating to the historical performance of all private accounts managed by the Advisor for the periods indicated that have investment objectives, policies, and strategies substantially similar to those of the Fund. **The data is provided to illustrate the past performance of the Advisor in managing substantially similar accounts as measured against a market index and does not represent the performance of the Fund. You should not consider this performance data as an indication of future performance of the Fund.**

The private accounts that are included in the performance data set forth below are not subject to the same types of expenses to which the Fund is subject, or to the diversification requirements, specific tax restrictions and investment limitations imposed on the Fund by the Investment Company Act of 1940, as amended (the “1940 Act”), or Subchapter M of the Internal Revenue Code of 1986, as amended. Consequently, the performance results for these private accounts could have been adversely affected if the private accounts had been regulated as investment companies under the federal securities laws.

The composite returns below were calculated in accordance with recognized industry standards which are calculated differently than the SEC method for calculating performance for registered investment companies. Monthly returns of the composite combine the individual accounts’ returns (calculated on a time-weighted rate of return basis) by asset weighting each account’s asset value as of the beginning of the month. Annual returns are calculated by geometrically linking (i.e., calculating the product of) the monthly returns.

**Average Annual Total Returns
For the Period Ended December 31, 2021**

	One Year	Since Inception (1/1/2017)
ESG SMID Cap Composite		
Net Returns, after fees/expenses*	25.70%	17.34%
Gross Returns	26.60%	18.13%
Russell 2500™ Index	18.18%	13.75%

* The net returns for the composite are shown net of all actual fees and expenses. The fees and expenses of accounts included in the composite are lower than the anticipated operating expenses of the Fund and accordingly, the performance results of the composite are higher than what the Fund’s performance would have been.

The ESG SMID Cap Composite was created in January 2017 and includes all discretionary accounts managed in the strategy. The ESG SMID Cap Composite contains securities of value and growth companies that have a market capitalization ranging from small-cap to mid-cap. The Advisor places an additional emphasis on ESG criteria as part of the portfolio construction and stock selection process. Returns are presented net of trading costs. Net returns reflect the additional deduction of management fees and are based on the actual account level net returns. Performance is expressed in U.S. dollars. Dividends are recorded gross of withholding taxes.

The Russell 2500™ Index measures the performance of the small to mid-cap segment of the U.S. equity universe, commonly referred to as “smid” cap. The Russell 2500™ Index is a subset of the Russell 3000® Index. It includes approximately 2500 of the smallest securities based on a combination of their market cap and current index membership. The Russell 2500™ Index is constructed to provide a comprehensive and unbiased barometer for the small to mid-cap segment. The Index is completely reconstituted annually to ensure larger stocks do not distort the performance and characteristics of the true small to mid-cap opportunity set.

DISTRIBUTION AND SERVICE (Rule 12b-1) FEES

Distribution and Service (Rule 12b-1) Fees (For Investor Class shares)

The Trust has adopted a plan on behalf of the Fund pursuant to Rule 12b-1 of the 1940 Act (the “12b-1 Plan”) which allows the Fund to pay distribution fees for the sale and distribution of its Investor Class shares and/or shareholder liaison service fees in connection with the provision of personal services to shareholders of Investor Class shares and the maintenance of their shareholder accounts. The 12b-1 Plan provides for the payment of such fees at the annual rate of up to 0.25% of average daily net assets attributable to Investor Class shares. Since these fees are paid out of

the Fund's assets attributable to the Fund's Investor Class shares, these fees will increase the cost of your investment and, over time, may cost you more than paying other types of sales charges. The net income attributable to Investor Class shares will be reduced by the amount of distribution and shareholder liaison service fees and other expenses of the Fund associated with that class of shares.

To assist investors in comparing classes of shares, the table under the Prospectus heading "Fees and Expenses of the Fund" provides a summary of expenses and an example of the expenses of the Fund applicable to each class of shares offered in this Prospectus.

Institutional Class shares are not subject to any distribution fees under the 12b-1 Plan.

YOUR ACCOUNT WITH THE FUND

Share Price

The offering price of each class of the Fund's shares is the net asset value per share ("NAV") of that class. The difference among the classes' NAVs reflects the daily expense accruals of the distribution fees applicable to Investor Class shares. The Fund's NAVs are calculated as of 4:00 p.m. Eastern Time, the normal close of regular trading on the NYSE, on each day the NYSE is open for trading. If for example, the NYSE closes at 1:00 p.m. New York time, the Fund's NAVs would still be determined as of 4:00 p.m. New York time. In this example, portfolio securities traded on the NYSE would be valued at their closing prices unless the Trust's Valuation Committee determines that a "fair value" adjustment is appropriate due to subsequent events. The NAV for each class is determined by dividing the value of the Fund's portfolio securities, cash and other assets (including accrued interest) allocable to such class, less all liabilities (including accrued expenses) allocable to such class, by the total number of outstanding shares of such class. The Fund's NAVs may be calculated earlier if permitted by the SEC. The NYSE is closed on weekends and most U.S. national holidays. However, foreign securities listed primarily on non-U.S. markets may trade on weekends or other days on which the Fund does not value its shares, which may significantly affect the Fund's NAVs on days when you are not able to buy or sell Fund shares.

The Fund's securities generally are valued at market price. Securities are valued at fair value when market quotations are not readily available. The Board has adopted procedures to be followed when the Fund must utilize fair value pricing, including when reliable market quotations are not readily available, when the Fund's pricing service does not provide a valuation (or provides a valuation that, in the judgment of the Advisor, does not represent the security's fair value), or when, in the judgment of the Advisor, events have rendered the market value unreliable (see, for example, the discussion of fair value pricing of foreign securities in the paragraph below). Valuing securities at fair value involves reliance on the judgment of the Advisor and the Board (or a committee thereof), and may result in a different price being used in the calculation of the Fund's NAVs from quoted or published prices for the same securities. Fair value determinations are made in good faith in accordance with procedures adopted by the Board. There can be no assurance that the Fund will obtain the fair value assigned to a security if it sells the security.

In certain circumstances, the Fund employs fair value pricing to ensure greater accuracy in determining daily NAVs and to prevent dilution by frequent traders or market timers who seek to exploit temporary market anomalies. Fair value pricing may be applied to foreign securities held by the Fund upon the occurrence of an event after the close of trading on non-U.S. markets but before the close of trading on the NYSE when the Fund's NAVs are determined. If the event may result in a material adjustment to the price of the Fund's foreign securities once non-U.S. markets open on the following business day (such as, for example, a significant surge or decline in the U.S. market), the Fund may value such foreign securities at fair value, taking into account the effect of such event, in order to calculate the Fund's NAVs.

Other types of portfolio securities that the Fund may fair value include, but are not limited to: (1) investments that are illiquid or traded infrequently, including "restricted" securities and private placements for which there is no public market; (2) investments for which, in the judgment of the Advisor, the market price is stale; (3) securities of an issuer that has entered into a restructuring; (4) securities for which trading has been halted or suspended; and (5) fixed income securities for which there is no current market value quotation.

Purchase of Shares

This Prospectus offers two classes of shares of the Fund, designated as Investor Class and Institutional Class. Currently, Investor Class shares are not available for purchase.

- Investor Class shares are subject to annual distribution fees.
- Institutional Class shares are not subject to any distribution fees.

By offering multiple classes of shares, the Fund permits each investor to choose the class of shares that is most beneficial given the type of investor, the amount to be invested and the length of time the investor expects to hold the shares. Before you invest, you should compare the features of each share class, so that you can choose the class that is right for you. When selecting a share class, you should consider the following:

- which shares classes are available to you;
- how long you expect to own your shares;
- how much you intend to invest; and
- total costs and expenses associated with a particular share class.

Investor Class and Institutional Class shares are generally available to all investors; however, share class availability depends upon your financial intermediary's policies and procedures. Institutional Class shares are subject to different eligibility requirements, fees and expenses, and may have different minimum investment requirements. You should consult with your financial advisor for more information to determine which share class is most appropriate for your situation.

Each class of shares generally has the same rights, except for the distribution fees, and related expenses associated with each class of shares, and the exclusive voting rights by each class with respect to any distribution plan or service plan for such class of shares.

To purchase shares of the Fund, generally you must invest at least the minimum amount indicated in the following table.

<u>Minimum Investments</u>	<u>To Open Your Account</u>	<u>To Add to Your Account</u>
Investor Class		
Direct Regular Accounts	\$2,500	\$100
Direct Retirement Accounts	\$2,500	\$100
Automatic Investment Plan	\$2,500	\$100
Gift Account For Minors	\$2,500	\$100
Institutional Class		
Direct Regular Accounts	\$50,000	\$100
Direct Retirement Accounts	\$50,000	\$100
Automatic Investment Plan	\$50,000	\$100
Gift Account For Minors	\$50,000	\$100

Shares of the Fund may be purchased by check, by wire transfer of funds via a bank or through an approved financial intermediary (*i.e.*, a supermarket, investment advisor, financial planner or consultant, broker, dealer or other investment professional and their agents) authorized by the Fund to receive purchase orders. Financial intermediaries may provide varying arrangements for their clients to purchase and redeem shares, additional fees and different investment minimums. In addition, from time to time, a financial intermediary may modify or waive the initial and subsequent investment minimums. The share classes your financial intermediary sells may depend on, among other things, the type of investor account and the policies, procedures and practices adopted by your financial intermediary. You should review these arrangements with your financial intermediary.

You may make an initial investment in an amount equal to or greater than the minimum amounts shown in the preceding table and the Fund may, from time to time, reduce or waive the minimum initial investment amounts. The minimum initial investment amount is automatically waived for Fund shares purchased by Trustees of the Trust and current or retired directors and employees of the Advisor and its affiliates.

To the extent allowed by applicable law, the Fund reserves the right to discontinue offering shares at any time or to cease operating entirely.

In-Kind Purchases and Redemptions

The Fund reserves the right to accept payment for shares in the form of securities that are permissible investments for the Fund. The Fund also reserves the right to pay redemptions by an “in-kind” distribution of portfolio securities (instead of cash) from the Fund. In-kind purchases and redemptions are generally taxable events and may result in the recognition of gain or loss for federal income tax purposes. See the SAI for further information about the terms of these purchases and redemptions.

Additional Investments

Additional subscriptions in the Fund generally may be made by investing at least the minimum amount shown in the table above. Exceptions may be made at the Fund’s discretion. You may purchase additional shares of the Fund by sending a check together with the investment stub from your most recent account statement to the Fund at the applicable address listed in the table below. Please ensure that you include your account number on the check. If you do not have the investment stub from your account statement, list your name, address and account number on a separate sheet of paper and include it with your check. You may also make additional investments in the Fund by wire transfer of funds or through an approved financial intermediary. The minimum additional investment amount is automatically waived for shares purchased by Trustees of the Trust and current or retired directors and employees of the Advisor and its affiliates. Please follow the procedures described in this Prospectus.

Dividend Reinvestment

You may reinvest dividends and capital gains distributions in shares of the Fund. Such shares are acquired at NAV on the applicable payable date of the dividend or capital gain distribution. Unless you instruct otherwise, dividends and distributions on Fund shares are automatically reinvested in shares of the same class of the Fund paying the dividend or distribution. This instruction may be made by writing to the Transfer Agent or by telephone by calling 1-877-882-8825. You may, on the account application form or prior to any declaration, instruct that dividends and/or capital gain distributions be paid in cash or be reinvested in the Fund at the next determined NAV. If you elect to receive dividends and/or capital gain distributions in cash and the U.S. Postal Service cannot deliver the check, or if a check remains outstanding for six months or more, the Fund reserves the right to reinvest the distribution check in your account at the Fund’s current NAV and to reinvest all subsequent distributions.

Customer Identification Information

To help the government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify and record information that identifies each person who opens an account. When you open an account, you will be asked for your name, date of birth (for a natural person), your residential address or principal place of business, and mailing address, if different, as well as your Social Security Number or Taxpayer Identification Number. Additional information is required for corporations, partnerships and other entities, including the name, residential address, date of birth and Social Security Number of the underlying beneficial owners and authorized control persons of entity owners. Applications without such information will not be considered in good order. The Fund reserves the right to deny any application if the application is not in good order.

This Prospectus should not be considered a solicitation to purchase or as an offer to sell shares of the Fund in any jurisdiction where it would be unlawful to do so under the laws of that jurisdiction. Please note that the value of your account may be transferred to the appropriate state if no activity occurs in the account within the time period specified by state law.

Automatic Investment Plan

If you intend to use the Automatic Investment Plan (“AIP”), you may open your account with the initial minimum investment amount. Once an account has been opened, you may make additional investments in the Fund at regular intervals through the AIP. If elected on your account application, funds can be automatically transferred from your checking or savings account on the 5th, 10th, 15th, 20th or 25th of each month. In order to participate in the AIP, each additional subscription must be at least \$100 and your financial institution must be a member of the Automated Clearing House (“ACH”) network. The first AIP purchase will be made 15 days after the Fund’s transfer agent (the “Transfer Agent”) receives your request in good order. The Transfer Agent will charge a \$25 fee for any ACH payment that is rejected by your bank. Your AIP will be terminated if two successive mailings we send to you are returned by the U.S. Postal Service as undeliverable. You may terminate your participation in the AIP at any time by notifying the Transfer Agent at 1-877-882-8825 at least five days prior to the date of the next AIP transfer. The Fund may modify or terminate the AIP at any time without notice.

Timing and Nature of Requests

The purchase price you will pay for the Fund’s shares will be the next NAV calculated after the Transfer Agent or your authorized financial intermediary receives your request in good order. “Good order” means that your purchase request includes: (1) the name of the Fund, (2) the dollar amount of shares to be purchased, (3) your purchase application or investment stub, and (4) a check payable to ***Kennedy Capital ESG SMID Cap Fund***. All requests received in good order before 4:00 p.m. (Eastern Time) on any business day will be processed on that same day. Requests received at or after 4:00 p.m. (Eastern Time) will be transacted at the next business day’s NAV. All purchases must be made in U.S. dollars and drawn on U.S. financial institutions.

Methods of Buying

Through a broker-dealer or other financial intermediary

The Fund is offered through certain approved financial intermediaries (and their agents). The Fund is also offered directly. A purchase order placed with a financial intermediary or its authorized agent is treated as if such order were placed directly with the Fund, and will be deemed to have been received by the Fund when the financial intermediary or its authorized agent receives the order and executed at the next NAV calculated by the Fund. Your financial intermediary will hold your shares in a pooled account in its (or its agent’s) name. The Fund may pay your financial intermediary (or its agent) to maintain your individual ownership information, maintain required records, and provide other shareholder services. A financial intermediary which offers shares may charge its individual clients transaction fees which may be in addition to those described in this Prospectus. If you invest through your financial intermediary, its policies and fees may be different than those described in this Prospectus. For example, the financial intermediary may charge transaction fees or set different minimum investments. Your financial intermediary is responsible for processing your order correctly and promptly, keeping you advised of the status of your account, confirming your transactions and ensuring that you receive copies of the Fund’s Prospectus. Please contact your financial intermediary to determine whether it is an approved financial intermediary of the Fund or for additional information.

By mail

The Fund will not accept payment in cash, including cashier’s checks. Also, to prevent check fraud, the Fund will not accept third party checks, Treasury checks, credit card checks, traveler’s checks, money orders or starter checks for the purchase of shares. All checks must be made in U.S. dollars and drawn on U.S. financial institutions.

To buy shares directly from the Fund by mail, complete an account application and send it together with your check for the amount you wish to invest to the Fund at the address indicated below. To make additional investments once you have opened your account, write your account number on the check and send it to the Fund together with the most recent confirmation statement received from the Transfer Agent. If your check is returned for insufficient funds, your purchase will be canceled and a \$25 fee will be assessed against your account by the Transfer Agent.

Regular Mail

Kennedy Capital ESG SMID Cap Fund
P.O. Box 2175
Milwaukee, Wisconsin 53201

Overnight Delivery

Kennedy Capital ESG SMID Cap Fund
235 West Galena Street
Milwaukee, Wisconsin 53212

The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agents.

By telephone

To make additional investments by telephone, you must authorize telephone purchases on your account application. If you have given authorization for telephone transactions and your account has been open for at least 15 days, call the Transfer Agent toll-free at 877-882-8825 and you will be allowed to move money in amounts of at least \$100, but not greater than \$50,000, from your bank account to the Fund's account upon request. Only bank accounts held at U.S. institutions that are ACH members may be used for telephone transactions. If your order is placed before 4:00 p.m. (Eastern Time) on a business day shares will be purchased in your account at the NAV calculated on that day. Orders received at or after 4:00 p.m. (Eastern Time) will be transacted at the next business day's NAV. For security reasons, requests by telephone will be recorded.

By wire

To open an account by wire, a completed account application form must be received by the Fund before your wire can be accepted. You may mail or send by overnight delivery your account application form to the Transfer Agent. Upon receipt of your completed account application form, an account will be established for you. The account number assigned to you will be required as part of the wiring instruction that should be provided to your bank to send the wire. Your bank must include the name of the Fund, the account number, and your name so that monies can be correctly applied. Your bank should transmit monies by wire to:

UMB Bank, n.a.

ABA Number 101000695

For credit to Kennedy Capital ESG SMID Cap Fund

A/C #9872318927

For further credit to:

Your account number

Fund Name

Name(s) of investor(s)

Social Security Number or Taxpayer Identification Number

Before sending your wire, please contact the Transfer Agent at 1-877-882-8825 to notify it of your intention to wire funds. This will ensure prompt and accurate credit upon receipt of your wire. Your bank may charge a fee for its wiring service.

Wired funds must be received prior to 4:00 p.m. (Eastern Time) on a business day to be eligible for same day pricing. **The Fund and UMB Bank, n.a. are not responsible for the consequences of delays resulting from the banking or Federal Reserve wire system, or from incomplete wiring instructions.**

Selling (Redeeming) Fund Shares

Through a broker-dealer or other financial intermediary

If you purchased your shares through an approved financial intermediary, your redemption order generally must be placed through the same financial intermediary. Such financial intermediaries are authorized to designate other financial intermediaries to receive purchase and redemption orders on the Fund's behalf. The Fund will be deemed to have received a redemption order when a financial intermediary (or its authorized agent) receives the order. The financial intermediary must receive your redemption order prior to 4:00 p.m. (Eastern Time) on a business day for the redemption to be processed at the current day's NAV. Orders received at or after 4:00 p.m. (Eastern Time) on a business day or on a day when the Fund does not value its shares will be transacted at the next business day's NAV. Please keep in mind that your financial intermediary may charge additional fees for its services. In the event your approved financial intermediary is no longer available or in operation, you may place your redemption order directly with the Fund as described below.

By mail

You may redeem shares purchased directly from the Fund by mail. Send your written redemption request to ***Kennedy Capital ESG SMID Cap Fund*** at the address indicated below. Your request must be in good order and contain the Fund name, the name(s) on the account, your account number and the dollar amount or the number of shares to be redeemed. The redemption request must be signed by all shareholders listed on the account. Additional documents are required for certain types of shareholders, such as corporations, partnerships, executors, trustees, administrators, or guardians (*i.e.*, corporate resolutions dated within 60 days, or trust documents indicating proper authorization).

Regular Mail

Kennedy Capital ESG SMID Cap Fund

P.O. Box 2175
Milwaukee, Wisconsin 53201

Overnight Delivery

Kennedy Capital ESG SMID Cap Fund

235 West Galena Street
Milwaukee, Wisconsin 53212

A Medallion signature guarantee must be included if any of the following situations apply:

- You wish to redeem more than \$50,000 worth of shares;
 - When redemption proceeds are sent to any person, address or bank account not on record;
 - If a change of address was received by the Transfer Agent within the last 15 days;
 - If ownership is changed on your account; or
 - When establishing or modifying certain services on your account.
-

By telephone

To redeem shares by telephone, call the Fund at 1-877-882-8825 and specify the amount of money you wish to redeem. You may have a check sent to the address of record, or, if previously established on your account, you may have proceeds sent by wire or electronic funds transfer through the ACH network directly to your bank account. Wire transfers are subject to a \$20 fee paid by the shareholder and your bank may charge a fee to receive wired funds. Checks sent via overnight delivery are subject to a \$25 charge. You do not incur any charge when proceeds are sent via the ACH network; however, credit may not be available for two to three business days.

If you are authorized to perform telephone transactions (either through your account application form or by subsequent arrangement in writing with the Fund), you may redeem shares worth up to \$50,000, by instructing the Fund by phone at 1-877-882-8825. Unless noted on the initial account application, a Medallion signature guarantee is required of all shareholders in order to qualify for or to change telephone redemption privileges.

Note: The Fund and all of its service providers will not be liable for any loss or expense in acting upon instructions that are reasonably believed to be genuine. To confirm that all telephone instructions are genuine, the caller must verify the following:

- The Fund account number;
- The name in which his or her account is registered;
- The Social Security Number or Taxpayer Identification Number under which the account is registered; and
- The address of the account holder, as stated in the account application form.

Medallion Signature Guarantee

In addition to the situations described above, the Fund reserves the right to require a Medallion signature guarantee in other instances based on the circumstances relative to the particular situation.

Shareholders redeeming more than \$50,000 worth of shares by mail should submit written instructions with a Medallion signature guarantee from an eligible institution acceptable to the Transfer Agent, such as a domestic bank or trust company, broker, dealer, clearing agency or savings association, or from any participant in a Medallion program recognized by the Securities Transfer Association. The three currently recognized Medallion programs are Securities Transfer Agents Medallion Program, Stock Exchanges Medallion Program and New York Stock Exchange, Inc. Medallion Signature Program. Signature guarantees that are not part of these programs will not be accepted. Participants in Medallion programs are subject to dollar limitations which must be considered when requesting their guarantee. The Transfer Agent may reject any signature guarantee if it believes the transaction would otherwise be improper. *A notary public cannot provide a signature guarantee.*

Systematic Withdrawal Plan

You may request that a predetermined dollar amount be sent to you on a monthly or quarterly basis. Your account must maintain a value of at least \$1,000 for you to be eligible to participate in the Systematic Withdrawal Plan (“SWP”). The minimum withdrawal amount is \$100. If you elect to receive redemptions through the SWP, the Fund will send a check to your address of record, or will send the payment via electronic funds transfer through the ACH network, directly to your bank account on record. You may request an application for the SWP by calling the Transfer Agent toll-free at 1-877-882-8825. The Fund may modify or terminate the SWP at any time. You may terminate your participation in the SWP by calling the Transfer Agent at least five business days before the next withdrawal.

Payment of Redemption Proceeds

You may redeem shares of the Fund at a price equal to the NAV next determined after the Transfer Agent and/or authorized agent receives your redemption request in good order. Generally, your redemption request cannot be processed on days the NYSE is closed. Redemption proceeds for requests received in good order by the Transfer Agent and/or authorized agent before the close of the regular trading session of the NYSE (generally 4:00 p.m. Eastern Time) will usually be sent to the address of record or the bank you indicate, or wired using the wire instructions on record, on the following business day. Payment of redemption proceeds may take longer than typically expected, but will be sent within seven calendar days after the Fund receives your redemption request, except as specified below.

If you purchase shares using a check and request a redemption before the check has cleared, the Fund may postpone payment of your redemption proceeds up to 15 calendar days while the Fund waits for the check to clear. Furthermore, the Fund may suspend the right to redeem shares or postpone the date of payment upon redemption

for more than seven calendar days: (1) for any period during which the NYSE is closed (other than customary weekend or holiday closings) or trading on the NYSE is restricted; (2) for any period during which an emergency exists affecting the sale of the Fund's securities or making such sale or the fair determination of the value of the Fund's net assets not reasonably practicable; or (3) for such other periods as the SEC may permit for the protection of the Fund's shareholders.

Other Redemption Information

IRA and retirement plan redemptions from accounts for which UMB Bank, n.a. is the custodian must be completed on an IRA Distribution Form or other acceptable form approved by UMB Bank, n.a. Shareholders who hold shares of the Fund through an IRA or other retirement plan must indicate on their redemption requests whether to withhold federal income tax. Such redemption requests will generally be subject to a 10% federal income tax withholding unless a shareholder elects not to have taxes withheld. An IRA owner with a foreign residential address may not elect to forgo the 10% withholding. In addition, if you are a resident of certain states, state income tax also applies to non-Roth IRA distributions when federal withholding applies. Please consult with your tax professional.

The Fund generally pays sale (redemption) proceeds in cash. The Fund typically expects to satisfy redemption requests by selling portfolio assets or by using holdings of cash or cash equivalents. On a less regular basis, the Fund may utilize a temporary overdraft facility offered through its custodian, UMB Bank, n.a., in order to assist the Fund in meeting redemption requests. The Fund uses these methods during both normal and stressed market conditions. During conditions that make the payment of cash unwise and/or in order to protect the interests of the Fund's remaining shareholders, the Fund may pay all or part of a shareholder's redemption proceeds in portfolio securities with a market value equal to the redemption price (redemption-in-kind) in lieu of cash. The Fund may redeem shares in kind during both normal and stressed market conditions. Generally, in kind redemptions will be effected through a pro rata distribution of the Fund's portfolio securities. If the Fund redeems your shares in kind, you will bear any market risks associated with investment in these securities, and you will be responsible for the costs (including brokerage charges) of converting the securities to cash.

The Fund may redeem all of the shares held in your account if your balance falls below the Fund's minimum initial investment amount due to your redemption activity. In these circumstances, the Fund will notify you in writing and request that you increase your balance above the minimum initial investment amount within 60 days of the date of the notice. If, within 60 days of the Fund's written request, you have not increased your account balance, your shares will be automatically redeemed at the current NAV. The Fund will not require that your shares be redeemed if the value of your account drops below the investment minimum due to fluctuations of the Fund's NAV.

Cost Basis Information

Federal tax law requires that regulated investment companies, such as the Fund, report their shareholders' cost basis, gain/loss, and holding period to the IRS on the shareholders' Consolidated Form 1099s when "covered" shares of the regulated investment companies are sold. Covered shares are any shares acquired (including pursuant to a dividend reinvestment plan) on or after January 1, 2012.

The Fund has chosen "first-in, first-out" ("FIFO") as its standing (default) tax lot identification method for all shareholders, which means this is the method the Fund will use to determine which specific shares are deemed to be sold when there are multiple purchases on different dates at differing net asset values and the entire position is not sold at one time. The Fund's standing tax lot identification method is the method it will use to report the sale of covered shares on your Consolidated Form 1099 if you do not select a specific tax lot identification method. Redemptions are taxable and you may realize a gain or a loss upon the sale of your shares. Certain shareholders may be subject to backup withholding.

Subject to certain limitations, you may choose a method other than the Fund's standing method at the time of your purchase or upon the sale of covered shares. Please refer to the appropriate Treasury regulations or consult your tax advisor with regard to your personal circumstances.

Tools to Combat Frequent Transactions

The Trust's Board of Trustees has adopted policies and procedures with respect to frequent purchases and redemptions of Fund shares by Fund shareholders. The Trust discourages excessive, short-term trading and other abusive trading practices that may disrupt portfolio management strategies and harm the Fund's performance. The Trust takes steps to reduce the frequency and effect of these activities on the Fund. These steps may include monitoring trading activity and using fair value pricing. In addition, the Trust may take action, which may include using its best efforts to restrict a shareholder from making additional purchases in the Fund, if that shareholder has engaged in four or more "round trips" in the Fund during a 12-month period. Although these efforts (which are described in more detail below) are designed to discourage abusive trading practices, these tools cannot eliminate the possibility that such activity may occur. Further, while the Trust makes efforts to identify and restrict frequent trading, the Trust receives purchase and sale orders through financial intermediaries and cannot always know or detect frequent trading that may be facilitated by the use of intermediaries or the use of group or omnibus accounts by those intermediaries. The Trust seeks to exercise its judgment in implementing these tools to the best of its ability in a manner that the Trust believes is consistent with the interests of Fund shareholders.

<i>Monitoring Trading Practices</i>	The Trust may monitor trades in Fund shares in an effort to detect short-term trading activities. If, as a result of this monitoring, the Trust believes that a shareholder of the Fund has engaged in excessive short-term trading, it may, in its discretion, ask the shareholder to stop such activities or refuse to process purchases in the shareholder's accounts. In making such judgments, the Trust seeks to act in a manner that it believes is consistent with the best interest of Fund shareholders. Due to the complexity and subjectivity involved in identifying abusive trading activity, there can be no assurance that the Trust's efforts will identify all trades or trading practices that may be considered abusive.
--	--

General Transaction Policies

Some of the following policies are mentioned above. In general, the Fund reserves the right to:

- vary or waive any minimum investment requirement;
- refuse, change, discontinue, or temporarily suspend account services, including purchase or telephone redemption privileges (if redemption by telephone is not available, you may send your redemption order to the Fund via regular or overnight delivery), for any reason;
- reject any purchase request for any reason (generally the Fund does this if the purchase is disruptive to the efficient management of the Fund due to the timing of the investment or an investor's history of excessive trading);
- delay paying redemption proceeds for up to seven calendar days after receiving a request, if an earlier payment could adversely affect the Fund;
- reject any purchase or redemption request that does not contain all required documentation; and
- subject to applicable law and with prior notice, adopt other policies from time to time requiring mandatory redemption of shares in certain circumstances.

If you elect telephone privileges on the account application or in a letter to the Fund, you may be responsible for any fraudulent telephone orders as long as the Fund and/or its service providers have taken reasonable precautions to verify your identity. In addition, once you place a telephone transaction request, it cannot be canceled or modified.

During periods of significant economic or market change, telephone transactions may be difficult to complete. If you are unable to contact the Fund by telephone, you may also mail your request to the Fund at the address listed under "Methods of Buying."

Your broker or other financial intermediary may establish policies that differ from those of the Fund. For example, the organization may charge transaction fees, set higher minimum investments, or impose certain limitations on buying or selling shares in addition to those identified in this Prospectus. Contact your broker or other financial intermediary for details.

Please note that the value of your account may be transferred to the appropriate state if no activity occurs in the account within the time period specified by state law.

Exchange Privilege

You may exchange shares of each Fund for the same class of shares of other funds managed by the Advisor. The amount of the exchange must be equal to or greater than the required minimum initial investment of the other fund, as stated in that fund's prospectus. You may realize either a gain or loss on those shares and will be responsible for paying any applicable taxes. If you exchange shares through a broker, the broker may charge you a transaction fee. You may exchange shares by sending a written request to the Fund or by telephone. Be sure that your written request includes the dollar amount or number of shares to be exchanged, the name(s) on the account and the account number(s), and is signed by all shareholders on the account. In order to limit expenses, the Fund reserves the right to limit the total number of exchanges you can make in any year.

Conversion of Shares

A share conversion is a transaction in which shares of one class of the Fund are exchanged for shares of another class of the Fund. Share conversions can occur between Investor Class and Institutional Class shares of the Fund. Generally, share conversions occur when a shareholder becomes eligible for another share class of the Fund or no longer meets the eligibility criteria of the share class owned by the shareholder (and another class exists for which the shareholder would be eligible). Please note that a share conversion is generally a non-taxable event, but you should consult with your personal tax advisor on your particular circumstances. Please also note, all share conversion requests must be approved by the Advisor.

A request for a share conversion will not be processed until it is received in "good order" (as defined above) by the Fund or your financial intermediary. To receive the NAV of the new class calculated that day, conversion requests must be received in good order by the Fund or your financial intermediary before 4:00 p.m., Eastern Time or the financial intermediary's earlier applicable deadline. Please note that, because the NAV of each class of the Fund will generally vary from the NAV of the other class due to differences in expenses, you will receive a number of shares of the new class that is different from the number of shares that you held of the old class, but the total value of your holdings will remain the same.

The Fund's frequent trading policies will not be applicable to share conversions. If you hold your shares through a financial intermediary, please contact the financial intermediary for more information on share conversions. Please note that certain financial intermediaries may not permit all types of share conversions. The Fund reserves the right to terminate, suspend or modify the share conversion privilege for any shareholder or group of shareholders.

The Fund reserves the right to automatically convert shareholders from one class to another if they either no longer qualify as eligible for their existing class or if they become eligible for another class. Such mandatory conversions may be as a result of a change in value of an account due to market movements, exchanges or redemptions. The Fund will notify affected shareholders in writing prior to any mandatory conversion.

Prospectus and Shareholder Report Mailings

In order to reduce the amount of mail you receive and to help reduce expenses, we generally send a single copy of any shareholder report and Prospectus to each household. If you do not want the mailing of these documents to be combined with those of other members of your household, please contact your authorized dealer or the Transfer Agent.

Additional Information

The Fund enters into contractual arrangements with various parties, including among others the Advisor, who provide services to the Fund. Shareholders are not parties to, or intended (or "third party") beneficiaries of, those contractual arrangements.

The Prospectus and the SAI provide information concerning the Fund that you should consider in determining whether to purchase shares of the Fund. The Fund may make changes to this information from time to time. Neither this prospectus nor the SAI is intended to give rise to any contract rights or other rights in any shareholder, other than any rights conferred by federal or state securities laws that may not be waived.

DIVIDENDS AND DISTRIBUTIONS

The Fund will make distributions of net investment income annually and net capital gains, if any, at least annually, typically in December. The Fund may make additional payments of dividends or distributions if it deems it desirable at any other time during the year.

All dividends and distributions will be reinvested in Fund shares unless you choose one of the following options: (1) to receive net investment income dividends in cash, while reinvesting capital gain distributions in additional Fund shares; or (2) to receive all dividends and distributions in cash. If you wish to change your distribution option, please write to the Transfer Agent before the payment date of the distribution.

If you elect to receive distributions in cash and the U.S. Postal Service cannot deliver your check, or if your distribution check has not been cashed for six months, the Fund reserves the right to reinvest the distribution check in your account at the Fund's then current NAV and to reinvest all subsequent distributions.

FEDERAL INCOME TAX CONSEQUENCES

The following discussion is very general and does not address investors subject to special rules, such as investors who hold Fund shares through an IRA, 401(k) plan or other tax-advantaged account. The SAI contains further information about taxes. Because each shareholder's circumstances are different and special tax rules may apply, you should consult your tax advisor about your investment in the Fund.

You will generally have to pay federal income taxes, as well as any state or local taxes, on distributions received from the Fund, whether paid in cash or reinvested in additional shares. If you sell Fund shares, it is generally considered a taxable event. If you exchange shares of the Fund for shares of another fund, the exchange will generally be treated as a sale of the Fund's shares and any gain on the transaction may be subject to federal income tax.

Distributions of net investment income, other than distributions the Fund reports as "qualified dividend income," are taxable for federal income tax purposes at ordinary income tax rates. Distributions of net short-term capital gains are also generally taxable at ordinary income tax rates. Distributions from the Fund's net capital gain (i.e., the excess of its net long-term capital gain over its net short-term capital loss) are taxable for federal income tax purposes as long-term capital gain, regardless of how long the shareholder has held Fund shares.

Dividends paid by the Fund (but none of the Fund's capital gain distributions) may qualify in part for the dividends-received deduction available to corporate shareholders, provided certain holding period and other requirements are satisfied. Dividends received by the Fund from REITs generally are not expected to qualify for treatment as qualified dividend income or for the dividends-received deduction. Distributions that the Fund reports as "qualified dividend income" may be eligible to be taxed to non-corporate shareholders at the reduced rates applicable to long-term capital gain if derived from the Fund's qualified dividend income and/or if certain other requirements are satisfied. "Qualified dividend income" generally is income derived from dividends paid by U.S. corporations or certain foreign corporations that are either incorporated in a U.S. possession or eligible for tax benefits under certain U.S. income tax treaties. In addition, dividends that the Fund receives in respect of stock of certain foreign corporations may be qualified dividend income if that stock is readily tradable on an established U.S. securities market.

You may want to avoid buying shares of the Fund just before it declares a distribution (on or before the record date), because such a distribution will be taxable to you even though it may effectively be a return of a portion of your investment.

Although distributions are generally taxable when received, dividends declared in October, November or December to shareholders of record as of a date in such month and paid during the following January are treated as if received on December 31 of the calendar year when the dividends were declared.

Information on the federal income tax status of dividends and distributions is provided annually.

Dividends and distributions from the Fund and net gain from redemptions of Fund shares will generally be taken into account in determining a shareholder's "net investment income" for purposes of the Medicare contribution tax applicable to certain individuals, estates and trusts.

If you do not provide the Fund with your correct taxpayer identification number and any required certifications, you will be subject to backup withholding on your redemption proceeds, dividends and other distributions. The backup withholding rate is currently 24%.

Dividends and certain other payments made by the Fund to a non-U.S. shareholder are subject to withholding of federal income tax at the rate of 30% (or such lower rate as may be determined in accordance with any applicable treaty). Dividends that are reported by the Fund as "interest-related dividends" or "short-term capital gain dividends" are generally exempt from such withholding. In general, the Fund may report interest-related dividends to the extent of its net income derived from U.S.-source interest and the Fund may report short-term capital gain dividends to the extent its net short-term capital gain for the taxable year exceeds its net long-term capital loss. Backup withholding will not be applied to payments that have been subject to the 30% withholding tax described in this paragraph.

Under legislation commonly referred to as "FATCA," unless certain non-U.S. entities that hold shares comply with IRS requirements that will generally require them to report information regarding U.S. persons investing in, or holding accounts with, such entities, a 30% withholding tax may apply to dividends payable to such entities. A non-U.S. shareholder may be exempt from the withholding described in this paragraph under an applicable intergovernmental agreement between the United States and a foreign government, provided that the shareholder and the applicable foreign government comply with the terms of the agreement.

Some of the Fund's investment income may be subject to foreign income taxes that are withheld at the country of origin. Tax treaties between certain countries and the United States may reduce or eliminate such taxes, but there can be no assurance that the Fund will qualify for treaty benefits.

FINANCIAL HIGHLIGHTS

The following table is intended to help you understand the Fund's financial performance. Certain information reflects financial results for a single Fund share. The total return figures represent the percentage that an investor in the Fund would have earned (or lost) on an investment in the Fund (assuming reinvestment of all dividends and distributions). The financial information for the period shown has been audited by Tait, Weller & Baker LLP, an independent registered public accounting firm, whose report, along with the Fund's financial statements, is included in the Fund's annual report, which is available upon request (see back cover).

Kennedy Capital ESG SMID Cap Fund - Institutional Class

Per share operating performance.

For a capital share outstanding throughout each period.

	For the Year Ended December 31,		For the Period June 28, 2019* through December 31, 2019
	2021	2020	
Net asset value, beginning of period	\$ 13.11	\$ 10.86	\$ 10.00
Income from Investment Operations:			
Net investment income (loss) ¹	(0.01)	²	0.01
Net realized and unrealized gain	3.31	2.28	0.87
Total from investment operations	3.30	2.28	0.88
Less Distributions:			
From net investment income	-	(0.03)	(0.02)
From net realized gain	(1.02)	-	-
Net asset value, end of period	\$ 15.39	\$ 13.11	\$ 10.86
Total return³	25.47%	20.98%	8.83% ⁴
Ratios and Supplemental Data:			
Net assets, end of period (in thousands)	\$ 13,327	\$ 6,368	\$ 1,390
Ratio of expenses to average net assets:			
Before fees waived and expenses absorbed	2.49%	15.92%	19.45% ⁵
After fees waived and expenses absorbed	0.82%	0.82%	0.82% ⁵
Ratio of net investment income (loss) to average net assets:			
Before fees waived and expenses absorbed	(1.75)%	(15.08)%	(18.53)% ⁵
After fees waived and expenses absorbed	(0.08)%	0.02%	0.10% ⁵
Portfolio turnover rate	87%	63%	27% ⁴

* Commencement of operations.

1 Based on average shares outstanding for the period.

2 Amount represents less than \$0.01 per share.

3 Total returns would have been lower had certain expenses not been waived or absorbed by the Advisor. Returns shown do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or redemption of Fund shares.

4 Not annualized.

5 Annualized.

Statement of Additional Information (SAI)

The SAI provides additional details about the investments and techniques of the Fund and certain other additional information. The SAI is on file with the SEC and is incorporated into this Prospectus by reference. This means that the SAI is legally considered a part of this Prospectus even though it is not physically within this Prospectus.

Shareholder Reports

Additional information about the Fund's investments will be available in the Fund's annual and semi-annual reports to shareholders. In the Fund's annual report, you will find a discussion of the market conditions and investment strategies that significantly affected the Fund's performance during its most recent fiscal year.

The Fund's SAI is available and annual and semi-annual reports will be available, free of charge, on the Fund's website at www.kennedycapital.com. You can also obtain a free copy of the Fund's SAI or annual and semi-annual reports, request other information, or inquire about the Fund by contacting a broker that sells shares of the Fund or by calling the Fund (toll-free) at 1-877-882-8825 or by writing to:

Kennedy Capital ESG SMID Cap Fund
